

Tough on Rodents. Trusted by Professionals.

Looking for reliable rodent control? Our Surefire® range is made right here in Australia by PCT International—an Aussie-owned company with a passion for quality. We use top-tier ingredients and follow strict ISO 9001 standards, so you get powerful, proven results every time.

Note: Rats average daily feed is 15-25g for up to 250g bodyweight
Mice average daily feed is 3-5g for up to 25g bodyweight

Single Feed Active

SUREFIRE ALL WEATHER BLOCKS RODENTICIDE

0.05g/Kg brodifacoum

15g average weight wax-based blocks, registered for use both indoor & outdoors. Controls rodent species resistant to Warfarin. Particularly suitable for use in damp situations. Contains human taste deterrent to reduce likelihood of accidental consumption by children. One feed—fast acting

Available in 150g, 1Kg, 2.4Kg and 8Kg pack sizes.

Single Feed Active

SUREFIRE BROMA BLOCKS RODENTICIDE

0.05g/Kg bromadiolone

15g average weight based blocks, registered for use both indoor & outdoors.

Particularly suitable for use in damp conditions. Contains Bitrex human-taste deterrent.

Extensive treatment / placement options on LDR:

Available in 150g, 1Kg, 2.4Kg and 8Kg pack sizes.

Single Feed Active

SUREFIRE DIFENATE ALL WEATHER BLOCKS RODENTICIDE

0.05g/Kg difenacoum

15g average weight wax-based blocks, registered for use both indoor & outdoors.

Controls anticoagulant resistant rodents.

Bait formulation has proven attractiveness to rodents. Very potent to rodents compared to non-target species, making it particularly useful where domestic or farm animals are present.

Available in 150g, 1Kg, 2.4Kg and 8Kg pack sizes

Multi Feed Active

SUREFIRE COUMA ALL WEATHER BLOCKS RODENTICIDE

0.37g/Kg coumatetralyl

15g average weight wax-based blocks, suitable for indoor and outdoor use. Registered for rat control in macadamia crops, sugar cane & pineapple plantations. Low risk of secondary poisoning. Approved for use in farm buildings, dairies, meatworks & wharf areas. Contains Bitrex human-taste deterrent.

Available in 2.4Kg and 8Kg pack sizes.

GRAIN & LIQUID BAIT RODENT STATIONS & TRAPS

Single Feed Active

SUREFIRE BROMA GRAIN BAIT

0.05g/Kg bromadiolone

A ready to use grain bait for control of both rats and mice. Contains bromadiolone, a second-generation anti-coagulant, ensuring that a single-dose of the bait will be effective. Suitable for use indoors and externally.

Available in 2Kg and 15Kg pack sizes.

Single Feed Active

SUREFIRE BROMA LIQUID

0.5g/L bromadiolone

Surefire Broma Liquid is a powerful, ready-to-use liquid rodenticide designed for rapid control of rats and mice in and around agricultural, commercial, and industrial buildings. Its highly palatable formulation ensures strong uptake in even the most challenging environments—ideal for areas where traditional baits may be less effective.

Available in 5L and 500ml bottles.

SUREFIRE RODENT STATION LARGE

Low profile design for ease of placement. High capacity bait chamber with horizontal and vertical bait se-curing rods. Heavy-duty construction using UV-resistant black plastic. Tamper-resistant locking device with single-twist key opening. Standard key opener works across the SureFire station range. Knockout anchoring holes for station securing.

Economic, quality Australian-made product.

Available in a carton of 6 stations and 6 openers.

SUREFIRE MOUSE PRO Mouse Station

Ultra-low profile station specifically designed for mice control. Bait chamber has sufficient capacity to contain two standard 15g bait blocks. Heavy-duty construction using UV-resistant black plastic. Tamper-resistant locking device with single-twist key opening. Standard key opener works across the SureFire station range. Knockout anchoring holes for station securing.

Economic, quality Australian-made product.

Available in a carton of 10 stations and 10 openers.

SUREFIRE HI-TOP RODENT STATION

Heavy-duty construction using UV-resistant black plastic. Tamper-resistant locking device with single-twist key opening. Standard key opener works across the SureFire station range. High capacity bait chamber with vertical bait securing rods. Station accepts snaptraps or glueboards. Knockout anchoring holes for station securing.

Economic, quality Australian-made product.

Available in a carton of 6 stations and 6 openers.
