

### ➤ Benefits of Jolt Selective Herbicide

- Non Ester Formulation
- Low Odour
- Schedule 5 Classification
- Effective Broadleaf Weed Control
- Quality Formulation
- Dual Modes of Action

### ➤ Tips in maximising performance when treating Broadleaf Weeds

- Apply to actively growing weeds.
- Transient discolouration may occur on Kikuyu, Carpetgrass & Qld Blue Couch.
- Varietal differences in certain buffalo grasses (eg. ST85) may produce more pronounced effects and it is recommended that small areas be tested for turf safety before large scale application occurs.
- Use a surfactant for difficult to wet weeds.
- Do not use on bentgrass or wintergrass golf and bowling greens.
- Do not use clippings as mulch around other plants or for composting.
- Do not apply if rain is expected within 4 hours.
- Do not apply if weeds or turf are under stress or when frosts are imminent.
- Shake container well before use.

#### Bin-dii

*Soliva sessilis*

Family: Asteraceae

**Flower Colour:** Forms burrs with short, sharp spines.  
**Foliage:** Leaves are finely divided. A small rosette forming annual, principally a weed of turf familiar to many bare footed children.

#### Capeweed

*Arctotheca calendula*

Family: Asteraceae

**Foliage:** Leaves succulent, deeply lobed. A flat, stemless sprawling annual weed. Difficult to control as it matures.  
**Seeds:** Woolly.

#### Cat's Ear

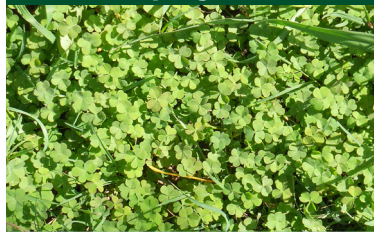

*Hypochoeris radicata*

Family: Asteraceae

**Flower Colour:** Golden Yellow  
**Foliage:** Leaves greater than 5cm long, generally hairless. A perennial plant, common weed in lawns, gardens and roadsides in all states.

#### Creeping Oxalis

*Oxalis corniculata*

Family: Oxalidaceae

**Flower Colour:** Bright Yellow with 5 petals.  
**Foliage:** Leaves in thress, heart shaped & pale green. Prolific seed producing, perennial plant.

#### Cudweed

*Gnaphalium* spp.

Family: Asteraceae

**Flower Colour:** Green with a Red or Purple tinge.  
**Foliage:** Spoon shaped leaves, woolly on both surfaces. Annual plant, common throughout coastal NSW and Qld.

#### Plantain

*Plantago lanceolata*

Family: Plantaginaceae

**Flower Colour:** White, sometimes with tinge of pink.  
**Foliage:** Leaves, long & narrow and pointed with deep veins. Roots: Strong taproot. Perennial rosette reproducing from seed. Mowers often miss seedheads.

#### White Clover

*Trifolium repens*

Family: Fabaceae

**Flower Colour:** White, sometimes with tinge of pink.  
**Foliage:** Leaves have three leaflets with white watermarks. Perennial legume is common in nitrogen deficient turf and areas with excess moisture
