

SECTION 1: PRODUCT and COMPANY IDENTIFICATION

Product Name: **OPTimizer® Insecticide Cattle Ear Tag**
EPA Reg. No. 39039-3

Date Prepared: 1/27/94
Date Revised: 5/12/2020

Y-TEX Corporation
1825 Big Horn Ave.
Cody, WY 82414

For Health Safety Emergency Only, Call CHEM-TEL, Inc. (24 hours): 1-800-255-3924 US
813-248-0585 International

Other Information Calls: 800-443-6401, 307-587-5515 (Y-TEX)
(7:30am – 4:30pm MDT, Monday-Friday)

General Use: End-use insecticide ear tag for cattle

SECTION 2: HAZARDS IDENTIFICATION**GHS CLASSIFICATION:**

Health	Environmental	Physical
Acute Toxicity: Category 5 (oral) Skin Irritation: No Skin Sensitization: No Eye: No	Acute Toxicity: Unknown, See Section 12 Chronic Toxicity: Category 4	None Known

GHS LABEL:

SIGNAL WORD:

WARNING

HAZARD STATEMENTS:

Symbols: Exclamation - Acute Toxicity, Environmentally hazardous substance

Hazard Statements	Precautionary Statements
WARNING H303 May be harmful if swallowed H413 May cause long lasting harmful effects to aquatic life	P101 If medical advice is needed, have product container or label at hand. P102 Keep out of reach of children. P103 Read label before use. P273 Avoid release to the environment. P312 Call a Poison Control Center or doctor if you feel unwell. P501 Dispose of contents by securely wrapping and discarding in trash. Non-refillable container. Do not reuse. Discard in trash or offer for recycling.

SECTION 3: COMPOSITION/INFORMATION ON INGREDIENTS**Hazardous substance**

Chemical Name	Identifiers	%, w/w	LD ₅₀	Comments
Diazinon	CAS No. 333-41-5	21.0%	486 mg/kg oral, rat	

SECTION 4: FIRST AID

Eye Contact: Eye contact may cause mild irritation. Avoid eye contact with tags or used gloves. If contacted, flush with plenty of water.
Skin Contact: Avoid skin contact by wearing chemical-resistant gloves made of rubber or any waterproof material (thickness equal to or greater than 14 mils). Wash skin thoroughly with soap and water after use. If allergic skin irritation occurs, wash thoroughly with soap and water and seek medical attention.
Ingestion: May be harmful if swallowed. If part of tag is swallowed, may induce vomiting by giving two glasses of water and sticking finger down throat. Call physician.
Inhalation: No apparent hazard with normal outdoor use when following instructions on label.
Other Information: Diazinon is a cholinesterase inhibitor. Overexposure may produce any of the following possible symptoms: headache, giddiness, blurred vision, weakness, nausea, cramps, diarrhea, discomfort in chest, nervousness, sweating, constricted pupils, tearing and salivation. If overexposure symptoms occur, call a physician immediately. **Note to physician:** Diazinon is an organophosphate insecticide. If symptoms of cholinesterase inhibition are present, atropine sulfate by injection is antidotal. 2-PAM is also antidotal and may also be administered, but only in conjunction with atropine.

SECTION 5: FIRE FIGHTING MEASURES

Flash Point (method): Not Applicable
LEL: Not Applicable
Flammability Classification: Not Applicable
Autoignition Temperature: Not Determined
UEL: Not Applicable
Extinguishing Media: Large fire: water fog or foam. Small fire: CO₂ or dry chemical. Minimize water use and contain runoff.
Hazardous Combustion Products: Thermal decomposition products include but are not limited to various aliphatic organophosphates, substituted pyrimidines, hydrogen cyanide, CO & CO₂. HC1, phosgene and chlorine gases are possible combustion products.
Unusual Fire or Explosion Hazards: If fire seriously threatens large storage of tags, personnel should evacuate the area as toxic and irritating gases may be formed.
Fire-Fighting Instructions/Equipment: (For a large quantity of product) Wear protective clothing including rubber gloves and boots and self-contained air supply (SCBA). Remain upwind if possible. Runoff must be contained due to fish toxicity.

SECTION 6: ACCIDENTAL RELEASE MEASURES

Use recommended personal protective equipment (see Section 8). Small Spill: Solid product. Not applicable. Large Spill: Solid product. Not applicable.

SECTION 7: HANDLING AND STORAGE

Handling Precautions: Keep out of reach of children. Harmful if swallowed. Causes moderate eye irritation. Avoid contact with eyes or clothing. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using the toilet. Wear chemical-resistant gloves made of rubber or any waterproof material (thickness equal to or greater than 14 mils) when applying tags.
Storage Requirements: Store in original container in a cool place away from direct sunlight. Opened bags containing ear tags should be resealed for storage.

SECTION 8: EXPOSURE CONTROLS/PERSONAL PROTECTION

EXPOSURE LIMITS:	Component	U.S. OSHA PEL	ACGIH TLV
	Diazinon		0.1 mg/m ³ (skin)
	Nuisance material (inert)	15 mg/m ³	10 mg/m ³
Eye/Face Protection:	None required		Skin Protection: Wear chemical-resistant gloves made of rubber or any waterproof material (thickness equal to or greater than 14 mils)
Respiratory Protection:	None required		
Engineering Controls:	None required		
Administrative Controls:	Use this product only as specified on the label.		Other Information: See Section 7

SECTION 9: PHYSICAL AND CHEMICAL PROPERTIES

Appearance/Physical State:	Solid, molded plastic ear tag, orange color	Odor Threshold (ppm):	Not applicable
Odor:	Mild, sulfur-like odor	Melting Point:	Approx. 150°C (302°F)
pH:	Not applicable	Flash Point:	Not applicable
Boiling Point:	Not applicable	Flammability (solid, gas):	Solid, nonflammable
Evaporation Rate:	Not applicable	UEL:	Not applicable
LEL:	Not applicable	Vapor Density (Air = 1):	Not applicable
Vapor Pressure (mm Hg):	2 x 10 ⁻⁴ for diazinon at 20°C	Specific Gravity (H ₂ O = 1):	Not applicable
Relative Density:	1.20 g/cc (15 g/tag)	Autoignition Temperature:	Not applicable
Solubility in Water:	Essentially insoluble (Diazinon = 40 ppm at 20°C)	V.O.C.: Not applicable	
Coefficient of Water/Oil solubility:	Not applicable		
Decomposition Temperature:	Not applicable		

SECTION 10: STABILITY AND REACTIVITY

Chemical Stability:	Stable	Hazardous Polymerization:	Will not occur
Conditions to Avoid:	Do not store near heat or open flame. Lengthy storage at high temperatures will promote the migration of plasticizers and diazinon out of tags, potentially reducing activity.		
Chemicals to Avoid:	None known		
Hazardous Decomposition Products:	Thermal decomposition products include but are not limited to various aliphatic organophosphates, substituted pyrimidines, hydrogen cyanide, CO & CO ₂ . HC1, phosgene and chlorine gases are possible combustion products.		

SECTION 11: TOXICOLOGICAL INFORMATION

Acute Effects: Very low single dose toxicity.

Eyes:	Eye contact may cause mild irritation. Avoid rubbing tags in eyes.
Skin:	Acute dermal LD ₅₀ >5050 mg/kg (male & female albino rabbits). Skin irritant: No (albino rabbits). Skin sensitizer: No (guinea pigs). Avoid skin contact by wearing chemical-resistant gloves made of rubber or any waterproof material (thickness equal to or greater than 14 mils).
Ingestion:	Acute oral LD ₅₀ >1500 mg/kg (male & female albino rats). May be harmful if swallowed. Do not store near food products.
Inhalation:	No apparent hazard with normal outdoor use when following instructions on label.

Chronic Effects

Eyes:	Not Determined	Carcinogenicity:	None known
Skin:	Not Determined	Target Organ Effects:	Not Determined
Ingestion:	Not Determined	Medical Conditions Aggravated by Long-term Exposure:	None presently known
Inhalation:	Not Determined	Sensitization to Product:	Skin – No (guinea pigs)
		Irritancy of Product:	Skin – No (albino rabbits)

SECTION 12: ECOLOGICAL INFORMATION

This product is highly toxic to fish, birds, and other wildlife. Do not apply directly to water. Do not contaminate water by disposal of used tags. Use this product only as specified on the label.

SECTION 13: DISPOSAL CONSIDERATIONS

Pesticide Disposal:	Remove tags before animal slaughter. Securely wrap used tags in a plastic bag or several layers of newspaper and discard in trash. Do not reuse tag container. Discard in trash.
Container Disposal:	Non-refillable container. Do not reuse bag. Discard bag in trash or offer for recycling if available.

SECTION 14: TRANSPORT INFORMATION

U.S. DOT:	Not regulated for transport
IATA:	Not regulated for transport
VESSEL (IMO/IMDG):	UN 3077, ENVIRONMENTALLY HAZARDOUS SUBSTANCE, SOLID, N.O.S., (Diazinon mixture), CLASS 9, PG III, Limited Qty, Marine Pollutant

SECTION 15: REGULATORY INFORMATION

Diazinon is on the U.S. EPA's Section 313 TRI Reporting list

This chemical is a pesticide product registered by the Environmental Protection Agency and is subject to certain labeling requirements under federal pesticide law. These requirements differ from the classification criteria and hazard information required for safety data sheets, and for workplace labels of non-pesticide chemicals. Following is the hazard information as required on the pesticide label:

CAUTION

Harmful if swallowed. Causes moderate eye irritation. Avoid contact with eyes or clothing. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using the toilet. Wear chemical-resistant gloves made of rubber or any waterproof material (thickness equal to or greater than 14 mils) when applying tags

NOTE TO PHYSICIAN: Diazinon is an organophosphate insecticide. If symptoms of cholinesterase inhibition are present, atropine sulfate by injection is antidotal. 2-PAM is also antidotal and may be administered, but only in conjunction with atropine.
