Bulk liquid 5 litre - Pink, Blue and Orange

*“This is the product the sheep, and definitely the wool industry has been in need of for years. It actually does what others claim to do, where others fail. This is made by a company that listens to your suggestions and are more than willing to make changes. In my opinion it's the best product on the market currently.”*

*James Jarden - Triple J Limited Sheep Scanning, Wairoa*

*“I used Fade Away paint for scanning last year and both my fine wool and crossbred farmers told me the paint was there for lambing but completely gone by shearing. I mark the sheep as I scan inside the enclosed space of the scanning trailer and find it doesn't give me the chemical hangover I have felt using other paint products. I highly recommend Fade Away.”*

*Tom Scaife - Scaife Scanning Ltd, Canterbury NZ*
