General Instructions:	<p>Yates Zero Triple Strike Professional Weedkiller Concentrate is both a contact and systemic weed control product that penetrates the foliage and kills the roots of the weeds. Results are seen as browning and wilting leading to plant death.</p> <p>*Visible results can take longer than 24 hours on certain tough weeds or weeds in shaded conditions.</p> <p>Yates Zero Triple Strike Professional Weedkiller Concentrate will control many weed species and is non-selective.</p> <p>Mixing Shake well before use. Add approximately half of the water to the spray container/tank first, then add the product and finally top up with water to the required amount. Do not mix more than is needed.</p> <p>Application Ensure that all weed foliage is covered with Yates Zero Triple Strike Professional Weedkiller Concentrate spray for maximum efficacy. Shake or agitate spray mix during application to keep well mixed. Avoid spraying plants that you do not want to kill and if accidentally sprayed immediately hose with water.</p>
-----------------------	---

Resistance Warning:	
---------------------	--

Precautions:	<p>RE-ENTRY DO NOT allow bystanders (and pets) to come into contact with the spray.</p> <p>Re-entry statement for the general public: DO NOT allow entry into treated areas until the spray has dried.</p> <p>Re-entry statement for occupational users: DO NOT enter treated areas until the spray has dried, unless wearing cotton overalls buttoned to the neck and wrist (or equivalent clothing) and chemical resistant gloves. Clothing must be laundered after each day's use.</p>
--------------	--

Protections:	<p>Protection of livestock DO NOT feed treated plants or feed treated grass clippings to animals or use to mulch plants.</p> <p>PROTECTION OF CROPS, NATIVE AND OTHER NON-TARGET PLANTS Toxic to plants. DO NOT allow spray to contact or drift onto plants you do not want killed.</p> <p>PROTECTION OF WILDLIFE, FISH, CRUSTACEANS AND ENVIRONMENT Toxic to aquatic life. DO NOT contaminate wetlands or watercourses with this product or used containers.</p> <p>PROTECTION OF HONEY BEES AND OTHER INSECT POLLINATORS Harmful to bees. DO NOT spray if bees are feeding on flowering plants.</p> <p>INTEGRATED PEST MANAGEMENT</p>
--------------	--

Toxic to beneficial arthropods. Not compatible with integrated pest management (IPM) programs utilising beneficial arthropods.

Storage and Disposal:	Store in the closed, original container in a cool, well-ventilated area. Do not store for prolonged periods in direct sunlight. Triple-rinse containers before disposal. Add rinsings to spray tank. Do not dispose of undiluted chemicals on site. If recycling, replace cap and return clean containers to recycler or designated collection point. If not recycling, break, crush, or puncture and deliver empty packaging to an approved waste management facility. If an approved waste management facility is not available, bury the empty packaging 500 mm below the surface in a disposal pit specifically marked and set up for this purpose, clear of waterways, desirable vegetation and tree roots, in compliance with relevant local, state or territory government regulations. Do not burn empty containers or product.
-----------------------	---

Safety Directions:	Will damage the eyes and skin. May irritate the nose and throat. Avoid contact with eyes and skin. Do not inhale spray mist. When opening the container, preparing spray and using the prepared spray, wear cotton overalls buttoned to the neck and wrist (or equivalent clothing) and a washable hat and elbow-length chemical resistant gloves and face shield. Wash hands after use. After each day's use, wash gloves and face shield and contaminated clothing.
--------------------	---

First Aid Instructions:	If poisoning occurs, contact a doctor or Poisons Information Centre. Phone Australia 131126. If swallowed, do NOT induce vomiting. If skin contact occurs, remove contaminated clothing and wash skin thoroughly. If in eyes, hold eyes open, flood with water for at least 15 minutes and see a doctor.
