Directions for Use:																									
Restraints:	<p>Do not use in species other than cattle</p> <p>Do not give orally or parenterally - this product is for application to the skin surface only</p> <p>Re-treatment interval: DO NOT RE-TREAT animals for 42 days after last treatment</p>																								
Contraindications:	This product should not be used in dogs, horses or any other pets																								
Precautions:	Cattle should not be treated when hair or hide is wet since reduced efficacy may be experienced. Rain falling on cattle in less than 2 hours after dosing may result in reduced efficacy. Reduced efficacy will result if applied to areas of skin with mange scabs or lesions, or with dermatoses or adherent materials, eg. caked mud or manure.																								
Side Effects:																									
Dosage and Administration:	<p>Apply along the topline in a narrow strip extending from the withers to the tailhead. The dose rate is 1mL for each 10kg of liveweight.</p> <p>Live weight (kg) Dose Volume (mL)</p> <table> <tr><td>50-100</td><td>10</td></tr> <tr><td>101-150</td><td>15</td></tr> <tr><td>151-200</td><td>20</td></tr> <tr><td>201-250</td><td>25</td></tr> <tr><td>251-300</td><td>30</td></tr> <tr><td>301-350</td><td>35</td></tr> <tr><td>351-400</td><td>40</td></tr> <tr><td>401-450</td><td>45</td></tr> <tr><td>451-500</td><td>50</td></tr> <tr><td>501-550</td><td>55</td></tr> <tr><td>551-600</td><td>60</td></tr> <tr><td>601-650</td><td>65</td></tr> </table> <p>Heavier animals, for example mature bulls, should receive an additional 5 mL for each 50 kg over 650 kg.</p> <p>A representative sample of animals should be weighed before treatment either with scales or a weighband.</p> <p>Dose rate to be based on heaviest cattle in each group. Do not underdose. When there is a large variation in size within the group, draft into two or more lines based on bodyweight, to avoid excessive overdosing.</p>	50-100	10	101-150	15	151-200	20	201-250	25	251-300	30	301-350	35	351-400	40	401-450	45	451-500	50	501-550	55	551-600	60	601-650	65

General Directions:	<p>The colour of VETSENSE IVERMEC Pour-On for Cattle fades when exposed to light and, depending on the light intensity, fading may occur in less than 30 minutes. This rapid loss of colour does not reflect loss of potency or Ivermectin. However, prolonged exposure to light can also result in gradual decline of Ivermectin potency in formulation.</p> <p>Gives off highly flammable vapour. Keep away from heat, sparks, open flame and other sources of ignition. Keep closed when not in use. Only use in well-ventilated area or outdoors.</p> <p>NOT TO BE USED FOR ANY PURPOSE, OR IN ANY MANNER, CONTRARY TO THIS LABEL UNLESS AUTHORISED UNDER APPROPRIATE LEGISLATION.</p>																								

Withholding Periods:	MEAT: DO NOT USE less than 42 days before slaughter for human consumption. MILK: Zero (0) days
Trade Advice:	EXPORT SLAUGHTER INTERVAL (ESI): DO NOT USE less than 42 days before slaughter for export. Before using this product, confirm the current ESI from Vetsense Pty Ltd on 0245779911 or the APVMA website (apvma.gov.au/residues).
